

CSP CASTING (THAILAND) CO., LTD.

Faster Better Together

Company Outline

CSP Casting (Thailand) Co., Ltd. is a manufacturer of Aluminum and Zinc Die casting & Gravity casting products. The company has substantial capabilities to deliver total solutions from mould design, mould making, engineering, die casting, gravity casting, precision machining, surface finishing, and assembly services.

To ensure high quality products, CSP has certified IATF 16949 and ISO 9001 and aims to offer an efficient service by meeting the demands of customers through punctual delivery and competitive price.

Company	: CSP Casting (Thailand) Co., Ltd.
Established	: October 12, 2000
Registered Capital	: 100 million Thai Baht
Area	: 32,000 sqm
Business	: Aluminum and Zinc Die casting & Gravity casting products Die casting mould Precision machined products
Product Applications	: Automotive parts Electrical parts
Customers	: Isuzu Motor, Hino Motor, Kawasaki, Bosch, Parker Hannifin, Mahle, Hitachi, Toshiba, etc
Quality Systems	: IATF 16949 ISO 9001

CSP Delivers your Solutions

from Mould Design

to Product Excellence

Aluminum and Zinc Die Casting Parts Gravity Casting Parts Precision Machined Parts

CSP Casting (Thailand) Co., Ltd.

can provide a completed turnkey solution for all of your Die casting and Gravity casting products requirements. We have adopted a systematic approach in the manufacturing process. To ensure quality and to meet the ever increasing demands of our existing and potential clients, we have incorporated complete production facilities and state-of-art technologies such as

Mould Design and Mould Making

Casting Simulation Program and 3D computerized graphic systems (CAD/CAM) for high technology and precision designing

Die casting & Gravity casting methods

coupled with superior casting process which effectively prevents porosity. Our Product Excellence such as Thin Wall, High Density, and Pure Aluminum Castings

Precision Machining

Various types of Robots with CNC machining centers and machining lathes to ensure the high accuracy of machined works

Statistical Process Control (SPC)

to monitor the process as well as the upgrading in product capability

IATF 16949
